Profile

Agile product owner with 10+ years of experience channeling clients' voices and product vision to drive value-ranked backlogs. Looking to take my skills to help your company be more profitable as I also advance my career.

Experience

Agile Product Owner - West Side Valley Company / Los Angeles, CA

June 2017 - Present

- Delivered Lean Agile programs with budgets of up to \$200K by supervising 10+ Lean Agile initiatives in 10 countries.
- Boosted buy-in of 30+ key strategic software products in Q1 of 2022.
- Implemented business-driven requirements and design processes, leading to a 40% increase in customer efficiency across workflows.
- Trained product management executives and launched high-performance value stream teams from zero to 85% productivity.
- Trained over 320 teams in financial services, telecommunications, hospitality, R&D, healthcare, logistics, and 10+ other industries.

Agile Coach - Zenka LLC / San Francisco, CA

MONTH YEAR – MONTH YEAR

- Overhauled company guidelines to meet customer requirements, which helped boost engagement by 80% in 2014 and 2015.
- Assisted in designing release plans for 40+ global custom-developed applications within the marketing department.
- Created a training program that met the individual needs of 50+ members new to the Agile community in the first year.
- Initiated a test-based continuous integration process using Behavior Driven Development (BDD) practices, reducing the defect rate of applications by 40%.
- Coded and optimized algorithms that enhanced the efficiency of RWEC's entire data processing infrastructure by 90% year over year.

Project Experience

- Designed automated low latency, high throughput data pipelines for real-time trading systems at 20+ bitcoin companies.
- Championed a project initiative that improved annual revenue by \$100K via automation and usability improvements to the company's existing software architecture.
- Worked with other management groups to ensure teams worked well together and delivered projects well before deadlines.
