Profile

Goal-oriented cloud architect with eight years of experience designing, deploying, and managing scalable cloud infrastructures with expertise in cloud security and automation tools. Seeking a role to drive digital transformation through cloud strategy.

Experience

Lead Cloud Architect - Cloudy Day Tech Solutions / Reno, Nevada
MONTH 2015 - 2023
- Oversaw the design and implementation of cloud-based systems.
- Led a team of cloud engineers in project execution.
- Liaised with clients to define technical requirements and solutions.
- Ensured adherence to cloud security and compliance standards.
- Trained junior team members in cloud technologies and best practices.

Cloud Engineer - Digidevs LLC / Reno, Nevada
MONTH 2011 – MONTH 2015
- Participated in the deployment and maintenance of cloud infrastructures.
- Assisted in troubleshooting cloud-related issues.
- Collaborated with the architect team to understand client needs.
- Conducted performance testing and optimization of cloud systems.
- Coordinated with the security team to implement cloud security measures.

Project Experience
- Orchestrated a multi-cloud strategy involving AWS, Azure, and GCP.
- Streamlined cloud operations by deploying infrastructure as code using Terraform and CloudFormation.
- Reduced costs by 20% through effective capacity planning and leveraging cloud-specific cost optimization techniques.
- Lorem quis bibendum auctor, nisi elit consequat ipsum

Education

Bachelor of Science in Information Systems - University of Nevada
