Experience

Commercial Construction Worker - Company / Location

MONTH YEAR - Present

- Assisted in the installation of electrical conduits, wiring, and distribution panels in commercial construction settings in conjunction with licensed electricians.
- Collaborated with other trades to coordinate electrical work with HVAC, plumbing, and structural installations, keeping on par with project deadlines.
- Installed lighting fixtures, switches, and receptacles, ensuring proper functionality and aesthetics on construction sites.
- Participated in electrical testing and commissioning to verify system integrity and performance as well as proper maintenance.
- Adhered to project schedules, quality standards, and safety guidelines to keep the work progressing at an appropriate rate.

Construction Electrician Apprentice - Company / Location

MONTH YEAR – MONTH YEAR

- Installed electrical systems in residential, commercial, and industrial construction projects throughout the region with expert electricians and contractors.
- Read and interpreted electrical and paper blueprints and specifications for accurate installations in industrial settings.
- Wired and connected electrical panels, switches, outlets, and lighting fixtures, paying attention to detail and regulations as well as safety protocols.
- Conducted electrical testing, troubleshooting, and quality inspections to ensure proper installation and maintenance.
- Collaborated with construction teams to ensure timely completion of electrical work by sticking to strict deadlines established by clients, vendors, and other parties.

Project Experience

- Participated in electrical renovation and retrofit projects for existing buildings and facilities and assisted in removing and replacing outdated electrical systems and components.
- Assisted team members in upgrading facility lighting systems to energy-efficient solutions and collaborated with other trades to coordinate electrical work with renovation activities.
- Assisted in wiring and connecting electrical systems in new commercial and residential construction projects, including panel boards, circuits, and outlets while installing lighting fixtures, ceiling fans, and other electrical devices.
