## Profile

Passionate and detail-oriented Cyber Security Intern with a strong interest in developing a cybersecurity career. Seeking an opportunity to utilize my academic knowledge and analytical skills in a professional setting and to work with a dynamic team to gain hands-on experience in the field.

## Experience

### Junior Security Analyst - Zytkan Corporations / Location

January 2022 – August 2022

- Assisted in monitoring the network for suspicious activity and analyzing security logs to detect incidents.
- Conducted vulnerability assessments on systems and networks, identifying weaknesses and potential security risks.
- Worked with senior cybersecurity professionals to analyze data trends and identify potential security threats.
- Contributed to developing and maintaining security policies, procedures, and incident response plans.
- Participated in implementing network security controls such as firewalls, intrusion prevention systems, and access controls.

### Network Administrator Intern - Beta IT Solutions / Location

May 2021 – August 202

- Assisted in managing and maintaining network systems to ensure optimal performance and security.
- Worked with senior network administrators to troubleshoot network issues and diagnose connectivity problems.
- Monitored network devices such as routers, switches, and firewalls to ensure network uptime and availability.
- Participated in implementing and enforcing network security measures such as access controls, firewalls, and intrusion detection systems.
- Collaborated with cross-functional teams to identify and troubleshoot security incidents and potential security threats.

### Project Experience
