

NAME

TITLE

000-000-0000 / EMAIL / CITY, STATE, ZIP

Profile

I'm a talented Diesel Mechanic with 15 years of experience taking care of earthmovers, generators, and construction equipment. I have a proper understanding of wear and tear experienced by various hardworking vehicles. I have great relationships with owners and operators – and I'm an effective team player with better understanding of documentation and customer service standards.

Experience

Diesel Mechanic - Company / Location

MONTH YEAR - Present

- Utilized company equipment to perform diagnostics, repair, and research issues on diesel vehicles & equipment.
- Maintained and repaired truck, van, and trailer parts, including engines, brakes, and fuel systems.
- Restricted company filing system to ensure 100% accuracy of records, warranty documents, and other files.
- Collaborated with the team to ensure all vehicles & equipment were worked on within three hours of drop-off.
- Reviewed DMV motor vehicle repair shop regulations every four months and updated company procedures as needed.

Diesel Technician - Company / Location

MONTH YEAR – MONTH YEAR

- Provided preventative maintenance services, including tire rotations, oil changes, filter replacements, and engine cleaning for 30+ vehicles per shift.
- Conducted complete vehicle inspections to ensure brakes, tires, flights, and fuel systems were working effectively.
- Handled 10+ types of difficult jobs, including farm equipment calls and total engine repairs.
- Documented 100% of repairs, replacements, and services according to company policy.
- Ensured 100% compliance with OSHA and state DMV laws.

Project Experience

- Ran a team that collaborated to ensure all vehicles and equipment were worked on shortly after drop-off.
- In charge of the documentation of repairs, replacements, and services for upper management.
- Organized meetings to ensure all employees were working in compliance with OSHA and state DMV laws.
