NAME

TITLE
000-000-0000 / EMAIL / CITY, STATE, ZIP

Profile

Committed to continuous learning and staying updated with the latest industry trends and best practices. Seeking an entry-level cyber security position where I can apply my knowledge and passion for technology to safeguard sensitive information and mitigate digital threats.

Experience

IT Support Specialist (Volunteer) - J-Turn Holdings / San Francisco, CA
January 2023 – April 2023
- Provided technical support to clients, resolving technical issues related to software and hardware.
- Managed and maintained network systems, ensuring system uptime and performance.
- Implemented security protocols and monitored systems for potential security threats.
- Performed regular backups and updates on critical systems.
- Monitored and analyzed security logs and events.

Cyber Security Intern - ABC Company / Los Angeles, CA
June 2021 – September 2021
- Assisted senior cyber security professionals in monitoring network and system activity.
- Collected development strategies from other cybersecurity professionals to improve the security posture of the company.
- Responded to security incidents by following procedures and protocols.
- Conducted vulnerability assessments on systems and networks to identify weaknesses and potential security risks.
- Maintained security documentation, such as incident response plans, security policies, and procedures.

Project Experience
- Participated in a team project to implement multi-factor authentication for a small business, enhancing data security and access control.
- Assisted in conducting vulnerability assessments and penetration testing for a local nonprofit organization, identifying and resolving security vulnerabilities.
