000-000-0000 / EMAIL / CITY, STATE, ZIP

Profile

To obtain an entry-level LVN position in a hospital setting that allows me to expand my knowledge and incorporate relevant skills and practices.

Experience

Clinical Intern - Company / Location

MONTH YEAR - Present

- Under direct supervision, I helped to complete tasks such as taking vital signs, assisting with personal hygiene, administering medications, and monitoring patients' conditions.
- I worked with a registered nurse to understand the importance of adequate documentation and how to include it in charting appropriately.
- Shadowed registered nurses as they observed and monitored patients on their caseload, seeing how they looked for specific warning signs and how to manage patient care.
- I assisted nurses in providing patient education and support, including explaining medications, demonstrating proper techniques for self-care, and offering emotional support to patients and their families.
- Implemented infection control protocols, proper hand hygiene, and other health and safety measures to ensure a safe healthcare environment for patients, families, and healthcare providers.

Emergency Department Clinical Rotation - Company / Location

MONTH YEAR – MONTH YEAR

- Performed initial assessments and triaged patients, including gathering information, taking vital signs, and identifying urgent medical needs.
- Assisted registered nurses with ordering and interpreting diagnostic tests, such as laboratory tests, electrocardiograms, and imaging studies.
- Under supervision, I started intravenous lines, assisted with intubation, performed CPR, managed wounds and injuries, and administered emergency medications.
- Assisted in stabilizing patients in critical or unstable conditions by providing oxygen therapy, managing cardiac and respiratory emergencies, and responding to trauma cases.
- I provided emotional support for patients and their families, communicated complex medical information, and managed crises calmly and efficiently.

Project Experience

- Volunteered at the community health fair, where I explained to school-aged children how germs spread when we are in school and what it does to our bodies.
- As part of my internship and clinical rotation, I created patient care plans to submit to my supervisor for feedback and approval.
- For my final paper, I wrote about the benefit of effective communication among medical staff, patients, and their families and how it benefits recovery and illness.
