Experience

Registered Nurse Intern - Mount Sinai Morningside Campus / New York

May 2023 - Present

- Provided high-quality patient care as part of a team of 20 registered nurses.
- Conducted patient assessments to inform ongoing patient care plans.
- Communicated with patients and families about post-discharge treatments.
- Maintained detailed, accurate electronic health records while maintaining HIPAA compliance.
- Collaborated within the nursing team to prioritize and delegate tasks.

Clinical Nursing Student - Manhattan Medical Center/ New York

August YEAR – December 2022

- Aided in taking vitals and maintaining patient charts with 98% accuracy.
- Participated in voluntary health education programs to further grow my understanding of patient conditions.
- Responded to patient complaints and made timely decisions regarding the best professional to speak with for possible resolutions.
- Assisted in patient mobilization, including bed turns and therapeutic exercises.
- Performed basic nursing procedures accurately and carefully under the supervision of a licensed mentor nurse.

Project Experience

- Graduate Thesis: “Preventing Falls in Geriatric Ward”
- Successfully opposed, executed, and analyzed the results of an evidence-based program to decrease patient falls by 30% within six months.
- Received a grant to continue research from the study host site.
- Summer Art Program
- Hosted a free, twice-weekly art program for ten children living in a rural community to assist with childcare concerns for working parents.
- Guided the students in organizing and hosting an end-of-summer art show that fell under budget.
