## Profile

I am a motivated young professional with freelance UX design experience looking to use my skills and education in a dynamic organization. I'm seeking a role where I can learn from other UX designers, collaborate, and develop the best user-friendly designs while growing with a company.

## Experience

### UX Design Internship - Company / Location

*MONTH YEAR - Present*

- Collaborate with a team of UX design professionals to discuss company goals, policies, and best UX design practices.
- Conduct user testing on various projects to see what works well and where improvements are needed before the final release.
- Design compelling and easy-to-use interfaces for different projects.
- Sit in on UX training sessions to hone design skills and learn new industry practices as they come out.

### Freelance UX Designer - Company / Location

*MONTH YEAR – MONTH YEAR*

- Built a profile on several freelancing sites that showcased my skills and recent projects.
- Worked with clients to understand their needs and develop the best way to meet or exceed them.
- Design user-friendly interfaces for websites, apps, and other products.
- Create mockups to run user testing on before releasing the final project to the client.

### Project Experience

- Mobile App Design: Designed an easy-to-use mobile app for college students to share the best deals on restaurants in the area.

## Education

### Bachelor's Degree in Computer Science - University of California
