## Profile

To land a challenging position in a medical setting to continue expanding my horizons in the LVN field.

## Experience

### Hospital LVN - Company / Location

MONTH YEAR - Present

- Provides direct patient care, including monitoring vital signs, administering medications (under the supervision of a registered nurse or physician), dressing wounds, collecting specimens for laboratory testing, and assisting with activities of daily living such as bathing, feeding, and mobility.
- Maintain accurate and detailed patient records, including vital signs, medication administration records, progress notes, and other relevant information.
- Collaborate with registered nurses, physicians, and other healthcare professionals to coordinate and deliver comprehensive patient care by communicating any changes in patient's conditions.
- Provide patient education on various topics such as medication instructions, post-operative care, disease management, and lifestyle modifications.
- Assist the healthcare team by collaborating with nursing assistants, unit clerks, and other support staff to ensure smooth workflow and efficient patient care delivery.

### LVN Intern - Company / Location

MONTH YEAR – MONTH YEAR

- Working under close supervision, I assisted with various patient care activities, including collecting vital signs, helping patients with personal hygiene, giving medicines, and checking their progress.
- With the help of a licensed nurse, I learned the value of thorough documentation and how to incorporate it into my charting.
- Observed and learned from RNs as they cared for their caseloads, paying close attention to how they handled patients and searched for particular warning flags.
- I helped nurses educate and support patients and their families by answering questions, showing self-care strategies, and explaining medicines.
- Implemented infection control protocols, appropriate hand hygiene, and other health and safety measures to ensure a safe environment for patients, their families, and healthcare professionals.

### Project Experience

- Coordinated with other LVN students to organize a health fair at the college, allowing other students to come and learn about the program and the future of nursing.
- Instituted a patient care plan review process that allows documentation to be completed and finalized on an expedited schedule.
- Worked alongside a hospital medical team to brainstorm patient care strategies and techniques for better recovery results.

## Education

### LVN Degree - Orange Technical College

MONTH YEAR

- GPA: LIST
- AWARD
- AWARD

### High School Diploma - Mavericks High School

MONTH YEAR
