Profile

Over six years of experience as a certified respiratory therapist in hospitals. Registered practitioner with in-depth knowledge of treatment methods, principles, and procedures. Adept at carrying out tests and creating treatment plans to address medical issues. Has excellent patient care record and great rapport with doctors and superiors.

Experience

Respiratory Therapist - Company / Location

2021 to present

- Monitored patient vitals and physiological responses to treatment plans.
- Set up and operated equipment such as ventilators and ECMO.
- Instructed patients on how to successfully complete rehabilitation programs.
- Enforced safety rules and ensured patients followed them.
- Reviewed patient information to assess the effectiveness of treatment plans.

Respiratory Therapist - Company / Location

2018 to 2021

- Cleaned and inspected medical equipment after every use.
- Educated patients and family members on the best therapeutic practices.
- Worked closely with a team of doctors, nurses, and administrative agents.
- Followed specific treatment parameters as per the doctor's orders.
- Trained five respiratory therapy technicians on best clinical practices.

Project Experience

- Volunteer at the Local Seniors Home: helped residents with medications and physical therapy.
- Respiratory Therapy Practices: conducted extensive research on the effect of different treatment plans.
- Training Technicians: taught five applicants the ins and outs of therapy duties.
