Profile

To utilize my skills and experience as a freelance photographer to capture and deliver high-quality images for a diverse range of clients. Seeking a challenging and flexible role that allows me to work on a project basis, showcase my creativity and versatility, and build lasting relationships with clients.

Experience

Self-Employed Photographer - Company / Location

MONTH YEAR - Present

- Schedule consultations with potential clients to go over their needs for the photoshoot and post-production.
- Meet the client at the designated photo shoot location to set up and prepare for the event.
- Take posed photos of the client and any important guests using natural light or a professional lighting kit.
- Capture candid moments during the photoshoot and event.
- Edit the images after, providing final photos to the client in a timely manner.

Photo Editor - Company / Location

MONTH YEAR – MONTH YEAR

- Import photos from the photographer's SD card or other file-storing methods.
- Provide light editing to all included photos to send to the client for review.
- Complete more advanced edits of the photos the client wants, following company editing processes.
- Return photos to the client in a timely manner, accepting requests for further edits as necessary.
- Stay up-to-date with the features and processes in Adobe Photoshop and other photo editing software.

Project Experience

- In a small business pitch competition, pitched a photography business idea aimed at photography for new mothers.
- Partnered up with a local mom-and-pop shop for a day of small photoshoots to help drive customers to the business.
- Participated in a photography competition and used skills to produce some of my best work.
