Profile

Skilled, credentialed helicopter pilot and aviation engineer seeking a full-time position as a helicopter pilot for the U.S. Army in which I can leverage my expertise in engineering and aeronautical decision-making (ADM).

Experience

Commercial Pilot - Company / Location

MONTH YEAR - Present

- **Job Description:** As a commercial helicopter pilot, planning and completing flights using various single and multi-engine airplanes and helicopters.
- **Outcomes:** Completed over 600 and 200 cross-country trips with 1,200 hours of flight, 600 hours of nighttime flying, and 450 hours of cross-country flight.
- **Additional Capabilities:** Developed systems knowledge to utilize airplane automation, maintained high safety standards for passengers and developed engineering capabilities and aeronautical decision-making.
- **Other:** Earned the "Pilot of the Year" award and was promoted to pilot in command within two years of working for the company.

Offshore Helicopter Pilot - Company / Location

MONTH YEAR – MONTH YEAR

- **Job Description:** Utilized a Bell 407 to transport cargo safely and passengers to and from offshore oil rigs.
- **Outcomes:** Maintained a 100% safety record with no reported incidents, conducted 500 hours of flight time with 75 hours of night-time flight.
- **Additional Capabilities:** Maintained 500h hours of over-water experience and developed exceptional ADM due to inclement weather and unpredictable flight conditions.
- **Other:** Maintained constant in-flight calculations to adjust for unpredictable conditions and developed a new protocol for checking machinery before flying, reducing inefficiencies by 50%.

Project Experience

- **Pre-Flight Protocol:** Developed numerous improved pre-flight protocols for various companies, reducing inefficiency and improving passenger safety conditions.
- **ADM Trainer:** Provided aeronautical decision-making training to junior pilots throughout my previous positions.
- **Pilot Medic:** I obtained my medical certification and volunteered as a helicopter medic during local emergencies.

Education

Flight Training - Embry-Riddle Aeronautical University

MONTH YEAR

- GPA: LIST
- AWARD
- AWARD

Bachelor of Science in Engineering - Embry-Riddle Aeronautical University

MONTH YEAR

- GPA: 3.46
- AWARD
- AWARD

Skills

Expertise

- Flexibility
- Aeronautical decision-making
- Helicopter engineering skills
- Pre-flight protocol
- Communication skills

Licenses & Accreditations

Licenses & Accreditations

- Commercial Certificate for Rotorcraft-Helicopters
- First Class Medical Certificate
- Instrument Rating Certificate
