

NAME

TITLE

000-000-0000 / EMAIL / CITY, STATE, ZIP

Profile

Motivated Junior Cyber Security Analyst with a strong foundation in information security principles and a passion for protecting sensitive data. Seeking an opportunity to contribute to a dynamic team, apply analytical skills, and enhance cybersecurity measures. Committed to continuous learning and staying updated with emerging threats and industry best practices.

Experience

**Network Administrator** - Zenka Company / San Francisco, CA

June 2021 – December 2022

- Configured and managed network devices such as routers, switches, and firewalls.
- Monitored network performance and ensured optimal network connectivity.
- Troubleshoot network issues and diagnosed and resolved connectivity problems.
- Implemented and enforced network security measures, including access controls and firewall configurations.
- Conducted network vulnerability assessments and implemented necessary security patches and updates.

**Cyber Security Intern** - XYZ Security Corporation / Houston, TX

MONTH YEAR – MONTH YEAR

- Assisted in monitoring and analyzing security events, logs, and alerts to identify potential threats or security breaches.
- Conducted preliminary investigations of security incidents under the supervision of senior analysts, documenting findings and recommending appropriate actions.
- Collaborated with cross-functional teams to implement and maintain security controls, including firewall configurations, access controls, and intrusion detection systems.
- Participated in vulnerability assessments and penetration testing activities to identify weaknesses in systems and applications.
- Contributed to developing and improving security documentation, including incident response plans and security policies.

**Project Experience**

- Lorem quis bibendum auctor, nisi elit consequat ipsum
- Lorem quis bibendum auctor, nisi elit consequat ipsum

Education

**Bachelor of Science in Cybersecurity** - University of Maryland

April 2021

- GPA: LIST
- AWARD
- AWARD

**DEPARTMENT - SCHOOL**

MONTH YEAR

- GPA: LIST
- AWARD
- AWARD

Skills

**Expertise**

- Strong understanding of cyber security principles, network protocols, and technologies
- Proficient in security event analysis and incident response procedures
- Knowledge of vulnerability assessment and penetration testing methodologies
- Familiarity with security control implementation, such as firewalls, access controls, and intrusion detection systems
- Analytical mindset with the ability to identify and analyze security risks and propose mitigation strategies

Licenses & Accreditations

**Licenses & Accreditations**

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- GIAC Security Essentials Certification (GSEC)
