Experience

Junior Scrum Master - CVS Health/ Location

2020 to Present

- Supervised the development of 30+ QA teams from creation to implementation in under six months
- Created JavaScript and PHP-based programs to assist five development teams in launching complex software application products for Google, Microsoft, and Tesla
- Developed value-added business strategies, including a rebranding campaign, three months into being hired in the company. These strategies double company revenue over 16 months
- Led the development of automatic payment software that saved the company \$200K in penalty fees and late payment fees
- Managed a five-year-long \$450K software project that enabled engineers to quickly track down logic errors, saving 50 hours of work every week

Junior Scrum Master - TrustCo/ Location

2018 to 2020

- Submitted more than 20 \$100K to \$500K projects for Trust Financial and U.S. Bancorp
- Built three high-performing Agile teams dedicated to developing the company's technology and digital roadmap
- Ensured 90% of inter-team impediments, risks, and blockers were communicated and resolved within 24 to 48 hours of identification
- Collaborated with two Agile Release Managers to facilitate a functional release per sprint cycle
- Introduced Agile to 50+ entry-level scrum masters and software engineers, increasing work efficiency by 30%

Project Experience

- Managed five team members on a \$200K development project that eliminated the security risk of credit card transactions
- Planned and managed all aspects of a long-term mainframe development Agile team for web developers and designers, saving a projected \$140K over three years
- Collaborated with high-profile senior scrum managers to produce and roll out new software across the enterprise with a \$1M project budget
