Experience

Pediatric Clinical - Mercy Clinic Family Medicine/ Location

MONTH YEAR - Present

- Assisted RNs on staff in providing ongoing patient care, including testing blood glucose, administering breathing treatments, maintaining GI feeding tubes, and redressing wounds.
- Monitored vital signs while documenting changes in patient charts.
- Collaborated with interdisciplinary teams to develop care plans.
- Provided post-op monitoring, pain management, and observation reports.
- Completed intake and discharge procedures.

Obstetrics Clinical - Willow Creek Women’s Clinic/ Location

MONTH YEAR – MONTH YEAR

- Assisted in providing prenatal, intrapartum, and postpartum care under the supervision of RNs and OB/GYN physicians.
- Participated in newborn delivery and care, including APGAR scoring.
- Monitored fetal heart rates and maternal vital signs during labor.
- Administered prescribed medications and monitored patients for side effects.
- Provided patient education, including the birthing process and breastfeeding.

Project Experience

- Community Health Outreach Program
- Worked with a team of nursing students to develop and implement an education program for at-risk residents about diabetes management.
- Participated in a pop-up clinic across three counties to provide free test strips and blood sugar tracking journals.
- Simulation Lab Project
- Served as the head LPN in a mock emergency scenario as part of the nursing program’s course of study.
- Delegated and prioritized tasks under time constraints while maintaining medical best practices.
- Received positive feedback regarding clinical skills and collaboration.
