Experience

Family Nurse Practitioner - Cache Valley Hospital/ Location

MONTH YEAR - Present

- Regularly gave counseling sessions to over 35 patients each month. The sessions encompassed nutrition requirements, prevention methods, exercise routines, and health risks.
- Tended to patients experiencing hypertension, diabetes, and hyperlipidemia. I provided medication available in urgent care departments.
- Oversaw diagnostic tests, electrocardiograms, and MRIs to indicate the nature of the illness in the patient.
- Administered joint injections and pharmacological, non-pharmacological, and orthotics interventions.
- Transferred patients to appropriate medical specialists when needed. In addition, I cooperated with case managers, psychologists, and social workers to provide the patient with well-rounded care.

Nurse Practitioner - American Fork Hospital/ Location

MONTH YEAR – MONTH YEAR

- Probed an average of 15 patients daily. Each examination involved checking medical history and making preliminary diagnoses.
- Assisted medical specialists by preparing equipment promptly when required.
- Meticulously recorded patient records and treatment administrations.
- Advised patients to refer to rehabilitation centers by providing them necessary contact information.
- Provided emotional care and companionship to vulnerable patients who may reject critical treatments.

Project Experience

- I volunteered in a program overseen by Doctors Without Borders that lasted over a year. During that time, I assisted in surgery operations overseas.
- I applied as a Health Care Volunteer to conduct HIV and AIDS education in the African region. The program allowed me to visit schools every month. Each lesson involved leading a discussion on disease awareness.
