Profile

Proin gravida nibh vel velit auctor aliquet. Proin gravida nibh vel velit auctor aliquet. Aenean sollicitudin, lorem quis bibendum auctor, nisi elit consequat ipsum, nec sagittis sem nibh id elit. Duis sed odio sit amet nibh ipsum.

Experience

Senior Phlebotomist - Company / Location

MONTH YEAR - Present

- Excelled in specimen collection techniques such as venipuncture, capillary puncture, saliva, stool, and sputum collection.
- Performed basic test applications such as malaria rapid test (MRDT), blood hemogram, blood grouping test, and pregnancy latex agglutination test.
- Collaborated with colleagues and other professionals to fast-track the specimen collection and analysis process to yield rapid results.
- Provided comfort to patients, answered their questions, and facilitated their satisfaction.
- Assisted in maintaining inventory by monitoring the use and stock of reagents and equipment.
- Operated and maintained phlebotomy and other laboratory equipment, including but not limited to needles, safety sharp boxes, coded bins, and lancets.

Phlebotomist Technician - Company / Location

MONTH YEAR – MONTH YEAR

- Collaborated with other institutional staff and colleagues for timely delivery of collected specimens.
- Dealt with patients with challenging veins, such as in pediatrics, geriatrics, and those with underlying medical conditions leading to venous collapse, embolisms, thrombus, or plaque deposition.
- Adhered to infection prevention and control practices to ensure the safety of patients and staff while minimizing the risk of contracting nosocomial infections.
- Maintained and operated phlebotomy equipment such as transport equipment and centrifuges.

Project Experience

- Collaborated with a multidisciplinary team to assess the reliability of the median cubital vein in forearm venipuncture.
- Conducted research on the expected variations of the median cubital vein and its relation to the bicipital aponeurosis and structures in the cubital fossa.
- Reviewed existing procedures and the risk imposed on the median and ulnar nerve branches in the cubital fossa and alternative venipuncture locations.
- Participated in developing and implementing a new standard operating procedure that involves accessing the median cubital vein in two of the most common locations.
- Implemented a quality assurance program to assess the success of the new SOP in managing patient-related procedural bottlenecks.

Education

Phlebotomy Certification Program - Vocational College

MONTH YEAR

- GPA: LIST
- AWARD
- AWARD

Basic Life Support Certification Program - National Healthcare Association

MONTH YEAR

- GPA: LIST
- AWARD
- AWARD

Skills

Expertise

- Phlebotomy equipment management
- Blood hemogram machine use and management
- Time management
- Interpersonal communication skills
- Continuous learning

Licenses & Accreditations

Licenses & Accreditations

- State-specific Phlebotomist license
- Certified Phlebotomist technician license
- Accreditation from the National Accrediting Agency for Clinical Laboratory Sciences (NCAAS)
