Profile	I'm an innovative product designer with five years of experience researching, creating, and implementing different products across various industries. I'm seeking a position within a company where I can put my skills to use and grow within the company to provide exceptional product designs.

Experience

Senior Product Designer - Company / Location
MONTH YEAR - Present
- Manage a team of product designers and researchers to understand better products and how to improve them.
- Design the final drafts of various products, including mobile apps, websites, and more, to ensure they exceed customer needs.
- Collaborate with other product designers to gather more insight and bounce ideas off one another.
- Assist in training other product designers and researchers as new trends emerge, and new designers join the team.

Product Designer and Researcher - Company / Location
MONTH YEAR – MONTH YEAR
- Conduct user research through surveys, fictional personas, and more to better understand how a product works and where improvements are needed.
- Design new products based on user research.
- Collaborate with other designers to problem-solve and troubleshoot design issues seamlessly.
- Analyze user data to understand how a product design functions in real time.

Project Experience
- Website Design: Design and implement a website for a local charity where people can donate, learn more about what they do, and how they can help if financial donations aren't possible.
