Proin gravida nibh vel velit auctor aliquet. Proin gravida nibh vel velit auctor aliquet. Aenean sollicitudin, lorem quis bibendum auctor, nisi elit consequat ipsum, nec sagittis sem nibh id elit. Duis sed odio sit amet nibh ipsum.

Experience

Front End Engineer- Company / Location

2021 – 2023

- Owned the architecture of major features within our software ecosystem.
- Mentored junior candidates and provided feedback on features to design products, and marketing.
- Was the point of contact for the engineering team.

Full Stack Engineer - Company / Location

2020 – 2021

- Employee number one at a startup.
- Participated in product design discussions, UI design, system architecture, and major security briefs.
- Built, tested, and delivered robust, full-stack solutions for a cross-platform mobile application.

Front End Engineer - Company / Location

2018 – 2020

- Built functional, performant solutions for our major applications.
- Debugged and maintained front and backend systems.

Project Experience

- Projects are less important for senior engineers to list on a resume than they are for mid or junior-level candidates. However, you should be able to talk about a recently completed feature or project if asked to do so during an interview

Education

BA Psychology - UC Davis

2016 – 2020
