## Profile

Seeking a senior construction worker position where I can leverage my expertise in managing large-scale projects, coordinating multiple teams, and ensuring high-quality standards.

## Experience

### Senior Construction Manager - Target Construction Bros/ Location

January 2018- Present

- Managed and oversaw all phases of commercial and residential construction projects, including site preparation, foundation work, framing, electrical, plumbing, HVAC, and finish work.
- Collaborated with architects, engineers, project managers, and subcontractors to ensure that projects are completed on time, within budget, and to the highest quality standards.
- Developed project schedules and budgets, identified potential risks and challenges, and provided proactive solutions to ensure project success.
- Hired and trained construction workers and subcontractors and provided leadership and direction to ensure that all work was completed safely, efficiently, and to company standards.
- Maintained accurate records of project costs, progress, and compliance with building codes and regulations and regularly updated clients and stakeholders on project status and milestones.

### Senior Construction Worker - Greenwood Builders/ Location

June 2015 – December 2017

- Led a team of construction workers in the successful completion of multiple commercial and residential projects, including a 25,000-square-foot office building and a 50-unit apartment complex.
- Coordinated with project managers, engineers, and architects to ensure adherence to project specifications, budget, and timeline.
- Oversaw the procurement of materials, equipment, and subcontractors, negotiating costs and ensuring quality and compliance with regulations.
- Conducted regular site visits to monitor progress, assess risk, and identify opportunities for process improvement and cost savings.
- Developed and implemented safety protocols, leading to zero accidents and injuries on all projects under my supervision.

### Project Experience

- Construction of a new community center:** Led the project team in constructing a new community center, including the design and installation of an HVAC system, plumbing, electrical, and audio/visual equipment.
- Served as an advisor:** Collaborated with stakeholders and city officials to ensure compliance with building codes and regulations.
- Renovation of a historic building:** Oversee the renovation of a historic building to convert it into a modern commercial space, coordinating with architects, engineers, and historic preservationists to ensure preservation.
