Experience

9th Grade Biology Tutor - Company / Location

MONTH YEAR - Present

- **Job Description:** Worked at St. Simon High School to provide biology tutoring to students after school hours and tutored over 30 students in biology and introductory chemistry.
- **Content:** Created, implemented, evaluated, and revised a tutoring curriculum for all of 9th-grade biology.
- **Results:** 25 students increased their GPAs by .1 to .5. Students grew in confidence, and two formerly absentee students in my group attended school consistently.
- **Extracurricular Experience:** Participated in color wars with other teachers, planned field trips to local museums, and worked with students to paint and design a mural.
- **Additional Responsibilities:** Led six field trips to museums across the state, co-led an overnight trip with over 40 students, and participated in the School Culture Committee.

Freelance STEM Tutoring - Company / Location

MONTH YEAR – MONTH YEAR

- **Job Description:** Founded a business to provide freelance STEM tutoring to students with exceptionalities.
- **Content:** Developed a STEM curriculum and personalized each lesson to meet the needs of students with exceptionalities and worked with over 20 students over one year while I was in school.
- **Results:** All students grew on their end-of-year tests. Four students were admitted to top-tier universities.
- **Extracurricular:** Organized a march for education opportunities with my students and led a protest with over 100 attendees.
- **Additional Competencies:** Designed and developed a website, purchased an L.L.C., and learned the business's basic accounting and tax laws.

Project Experience

- **Outward Bound:** Led 12+ teens on three-week backpacking trips through the Rocky Mountains two summers in a row.
- **Babysitting Experience:** 5+ years of babysitting experience + after-school tutoring for 2nd-8th graders.
- **Small Group Tutoring:** Volunteer Science tutor at a local after-school program for disabled students.
