## Profile

Seeking a role as a Wildland Firefighter, using specialized skills in fire behavior, suppression techniques, and equipment operation to combat wildfires, protect natural landscapes, and ensure community safety with a solid commitment to safety protocols and environmental preservation.

## Experience

**Wildland Firefighter** - National Park Service / Location  
MONTH 2013 - 2017

- Conducted initial fire assessments and implemented appropriate suppression strategies to control wildfires.
- Operated and maintained various firefighting equipment, such as hand tools, pumps, and hoses.
- Constructed firelines and established containment measures to prevent the spread of wildfires.
- Participated in prescribed burning activities to reduce fuel loads and mitigate the risk of uncontrolled fires.
- Collaborated with interagency firefighting teams to coordinate efforts and ensure effective incident management.

**Crew Leader** - U.S. Forest Service Hotshot Crew / Location  
MONTH 2009 – MONTH 2013

- Led a highly skilled team of firefighters during wildfire suppression operations, ensuring efficient and safe execution.
- Provided training and mentoring to crew members, focusing on fire behavior, safety procedures, and tactical firefighting skills.
- Conducted pre- and post-fire assessments, analyzing fire behavior and potential hazards to develop effective strategies.
- Utilized chainsaws and other tools to clear vegetation and create firebreaks to control the spread of wildfires.
- Assisted in maintaining and repairing firefighting equipment and tools, ensuring readiness for future deployments.

### Project Experience

- Fuel reduction and fire mitigation:** Developed and supervised a comprehensive program focused on reducing hazardous fuel loads, implementing controlled burns, and managing vegetation to minimize the risk and severity of wildfires in high-risk areas.
- Ecosystem restoration and resilience program:** Led an [ecosystem restoration](#) initiative to enhance the resilience of fire-affected landscapes, incorporating practices such as reforestation, erosion control, and the reintroduction of native species to restore natural habitats and promote long-term ecological health.

## Education

**Bachelor of Science in Forest Management-** SCHOOL  
MONTH 2009

- GPA: LIST
- AWARD
- AWARD

**DEPARTMENT - SCHOOL**  
MONTH YEAR

- GPA: LIST
- AWARD
- AWARD

## Skills

- Expertise**
- Wildland fire behavior
  - Team coordination
  - Equipment operation
  - [Incident command system \(ICS\)](#)
  - Emergency response and safety protocols

## Licenses & Accreditations

- Licenses & Accreditations**
- Wildland Firefighter Type 1 (FFT1) Certification
  - Incident Command System (ICS) 100, 200, and 300 Certifications
  - Red Card (NWCG Wildland Fire Qualification System)
